Available full-time from 1 November 2026

PROFILE

Data Analyst transitioning into Data Engineering with hands-on PHP/MySQL development for a seven-person Budget Office team. Experienced in SQL-based data handling, validation and Power BI reporting, with foundational knowledge of ETL/ELT, pipelines and data warehousing.

TECHNICAL SKILLS

Programming & Databases: SQL, Python, PHP, MySQL
Data Processing: Cleaning, validation, transaction consolidation, report preparation
Engineering Concepts: ETL/ELT, data pipelines, data warehousing
Basic Knowledge: Docker, PySpark, Google Cloud Platform (GCP), BigQuery
BI & Reporting: Power BI, Tableau, Excel

PROFESSIONAL EXPERIENCE

Military Service — Budget Office Assignment
Nov 2025 – Present | Expected completion: Nov 2026

- **Built a PHP/MySQL budget system in six months** for 7 users, covering allocations, transactions, access and reporting. Wider deployment is under consideration only.
- **Consolidated withdrawals, transfers and disbursements** for dashboards and monthly, quarterly, annual and fiscal-year reporting.
- **Automated payment documents and approval workflows**: estimated 3–4 hours saved daily.

Zanroo Thailand — Data Analyst | Mar 2025 – Oct 2025

- **Maintained and improved two client Power BI dashboard projects each month**, including dataset updates and data validation.
- Built dashboards for new clients and **delivered two insight reports per month**.
- **Defined monitoring keywords, hashtags and topics from client requirements**; prepared weekly updates, six-month and annual summaries, and historical reports.

THOTH AI — Data Annotator / Labeller | Nov 2024 – Feb 2025

- Reviewed and validated 650–700 cases daily, flagging incorrect or irrelevant data.
- Rechecked completed work and reviewed individual KPIs monthly against targets.

TECHNICAL PROJECT
Thai Sign Language Detection System — Senior Project

Built a webcam-based MediaPipe system; evaluated 5+ Machine learning models with a coded performance-comparison **pipeline to support model selection**.

EDUCATION

Bangkok University | 2020–2023 | **GPA: 3.32/4.00**
Artificial Intelligence Engineering and Data Science
